*A death from plague at Honolulu.*

HONOLULU, H. I., *March 19, 1902.*

SIR: I have the honor to report a death from bubonic plague in Honolulu on March 17. The illness was of thirty days' duration, and the clinical history was not typical of plague, therefore the diagnosis was

not officially announced until the necropsy had been held and the usual bacteriological examinations made. The case is a very unusual and interesting one and will be fully reported later. On account of every precaution in the way of isolation having been observed, I do not consider that this case affects the present health status of Honolulu.

Respectfully,

L. E. COFER,  
*Passed Assistant Surgeon, U. S. M. H. S.,  
 Chief Quarantine Officer, Hawaii.*

The SURGEON-GENERAL,  
*U. S. Marine-Hospital Service.*
